

QObject

QGraphicsItemGroup

Header

```
graph BT; Header[Header] --> QObject[QObject]; Header --> QGraphicsItemGroup[QGraphicsItemGroup];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'Header'. Two lines extend upwards from the 'Header' box, each ending in an arrowhead pointing to one of two boxes above it. The left box is labeled 'QObject' and the right box is labeled 'QGraphicsItemGroup'. This indicates that 'Header' is the base class for both 'QObject' and 'QGraphicsItemGroup'.
